

Medical care for your child in Switzerland

Nestled in the heart of Europe, Switzerland boasts one of the best healthcare systems.

Despite the benefits of the Swiss healthcare sector, once your child is abroad, handling medical care may be very difficult.

In such situations, we will make sure that you can rely on one highly competent and local single point of contact for your child. Our premium health care services organize and provide access to the best possible medical treatment for your child.

We have a proven track record in delivering individually tailored healthcare solutions that fully meet patient's need.

Provided by SWMIXMED LTD

We are there - every step of the way

In case that your child may need medical treatment in Switzerland; we provide you, or an authorized guardian, through one single point of contact, access to the best possible medical treatment, rehabilitation and prevention programs.

Your main contact will be a personal case manager, who coordinates and monitors all medical arrangements, ensuring timely treatment with highly qualified medical teams, thus ensuring fast, simple and completely discreet service.

So whatever your child's health care needs or concerns are, we will attend to them
– **EVERY STEP OF THE WAY** –

Our services include:

1. Comprehensive organization of medical care, from initial inquiries to termination of treatment
2. Personal initial introduction on health care services by SWIXMED.
3. Access to the SWIXMED Guest Relations Department.
4. Organization of answers to medical questions.
5. Organization and coordination of all medical appointments - Tailor-made treatment plan according to your child's current requirements
6. Accompanied visits to medical appointments in-patient **and** out-patient treatments (upon request).
7. Personal assistance with check-in procedures at the doctor's office or at the hospital.
8. Active case management.
9. Access to our Guest Relation Department in case of language problems, organization translation of medical files is needed, or coordination with your child's doctor at home.

HOW IT WORKS:

YOUR CHILD

You or an authorized guardian contacts SWIXMED by phone, mail or fax in case that your child needs medical treatment. You may ask questions such as: "My child broke here brace. Which dentist can help here?" – "He had a skiing accident. Can you suggest a leading specialist?"

SWIXMED

Acts as the single point of access, connects your child to leading doctors, arranges and coordinates medical appointments and treatments, provides personal guest relations and case management, organizes translation services where needed, assures complete discretion.

MEDICAL TREATMENT

By leading specialists in primary hospitals with tailor-made treatment plans.
